A message From The President

10 years ago, Ashtel began as a company with the vision to deliver innovative products and services to our customers; quickly and at good value. Over the past decade we kept these strategies in focus for our growing customer base of professionals, retailers and consumers. We now look forward to the second decade for our company and the opportunity to provide our customers with the level of innovation, quality and value that they have come to expect.

2002 From the beginning, Ashtel was a global operation with offices in North America and Asia. This cross-continental structure uniquely positioned our young company to operate around-the-clock to provide our clients quick delivery, exceptional quality and great value. Satisfied clients spread the word quickly and our portfolio of products and services quickly grew to include:

- Website design, management and SEO
- Dental technology integration services
- Full suite of print services for professionals
- Implementation and management of network services
- Tech services that include installation, upgrades and repairs
- Exclusive North American provider of the Owandy line of digital dental equipment
- Innovative, educational and entertaining oral care products

2012 This year looks to be the most exciting yet for Ashtel as we expand our products and services in to new and exciting directions. Website services are now an established part of every successful dental practice and our experienced team of designers, programmers and marketers are helping our client-professionals reach their patients more quickly and efficiently than ever-before.

Our Owandy business continues to grow by offering affordable innovation with new features like our true Bitewing Mode and our upcoming I-Max Touch 3D.

The Brush Buddies oral care business is skyrocketing into super stardom with our launch of the new Justin Bieber line of singing toothbrushes and other oral care products. Billboard ranks Justin Bieber #1 among the Best of 2011 Top 50 Artists in Social Media and his fans drove one of the most successful product launches in oral care history when they established Brush Buddies as *the brand* that defines the singing toothbrush category. This summer continues the excitement as we launch our Lady Gaga Singing Toothbrushes; the #2 ranked superstar in Billboards list!

As we look forward to our second decade, I would like to thank you; our customers, our employees and our partners because without you, our success will not be possible.

It's always a great day at Ashtel Dental.

Anish Patel
President & CEO

SOFTWARE

PRACTICE MANAGEMENT

- Robust practice management system at the most economical price
- Multi-user system
- Paperless module included

Software with 3D Tooth Chart

- Perio & 3D charting included
- Patient consent forms with signatures
- Patient information terminal

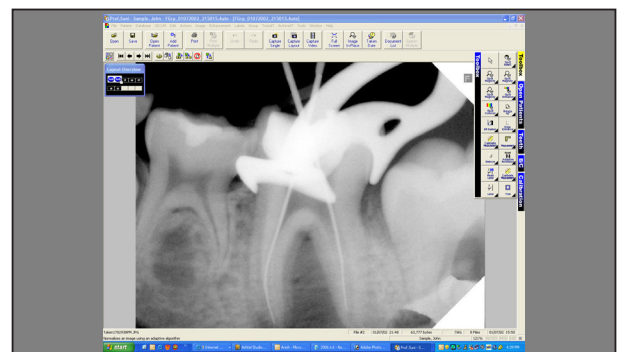

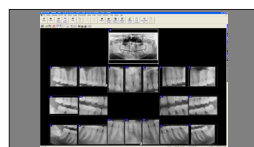

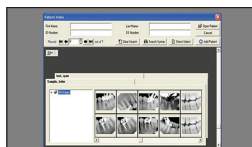

IMAGING

APTERYX

IMAGING
SOFTWARE

- Integrates with all major practice management software
- Integrates with hardware from major manufacturers
- Ability to slice a pan into an FMX
- Pan/ sensor/ from different manufacturers on same software

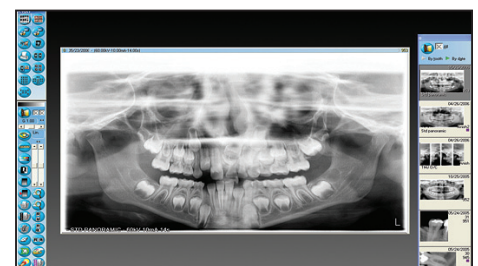

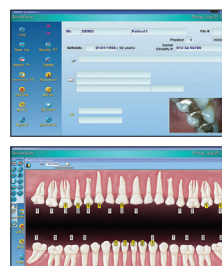

owandy

QUICK VISION
IMAGING SOFTWARE

- Integrates with major practice management software
- Cosmetic module included
- Multi-user system
- Implant Module
- Image enhancement for better diagnosis
- Will work with most intraoral cameras

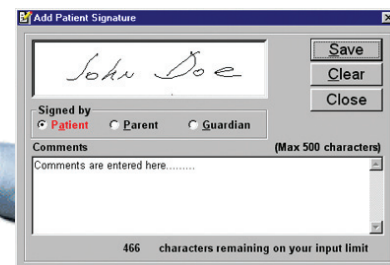

GO PAPERLESS

MEDICTALK SOFTWARE- DENTFORMS

MEDICTALK

A new way of working with informed consents, questionnaires, and other documents electronically. Stores patients', doctors', and witnesses' signatures digitally.

- Go paperless in your office with this software
- Integrates with major practice management software
- Connects to your website, allowing patients to complete forms before appointment

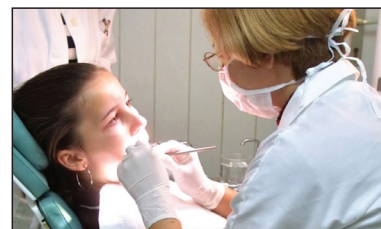

PATIENT EDUCATION

INFO STAR - CONTINUOUS PLAY

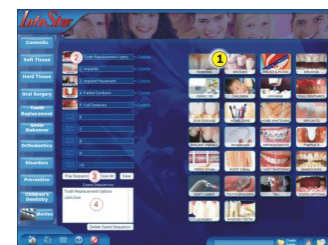

GREAT FOR THE FRONT OFFICE

Showcase your practice in the reception area and in the operatories with a custom presentation. Presentations are available on DVD or CD. Have this running in your lobby and show patients what your office can do for them. Market all your services on this. This can be customized for your office with services you provide at your facility. Our production crew will come to your office to create a customized video that is personalized to your satisfaction.

INFO STAR - CHAIRSIDE INTERACTIVE

Info Star provides a responsive, bilingual, user friendly, chair-side, interactive procedure explanation program. Patient education is a must for all offices. Play a series of videos while a patient is waiting for you and sell a service without a person in the room. While talking with a patient, open up a patient education screen and use it to explain the procedure you are about to do. You can also print the procedure, make a CD, or email it to the patients right from the software.

INTEGRATION TOOLS

DATAGRABBER

Data Grabber is a tool used to bridge between practimanagement and imaging software. A bridge will eliminate double data entry and send patient information directly from management software to imaging software.

Can you afford to lose all your data?

ASHTEL
ezvault
Online Backup Service

SECURE SENSITIVE INFORMATION

- HIPAA compliant
- Files are encrypted before transmission to backup server, maintaining privacy and confidentiality

RELIABLE FILE STORAGE, UNLIMITED COMPUTERS

- Detailed logs store the history of each file that is backed up and retrieved
- For Redundant protection, add optional remote backup for peace of mind.*

SAFEGUARD ANY FILETYPE

- Stores data files, applications, and system settings for full system recovery
- Compatible with both Windows and Macintosh Operating Systems

EFFORTLESS BACKUP

- Just set it up once, and the automated system regularly backs up your data
- Ashtel EZVault sends daily confirmation emails, keeping you informed on its progress

Imagine what would happen if you lost all of your patient records, digital x-rays, and billing information

It could cost thousands to recover or shut down your practice!

Ashtel EzVAULT safely stores your records offsite for easy retrieval and re-install using our secure encrypted backup system.

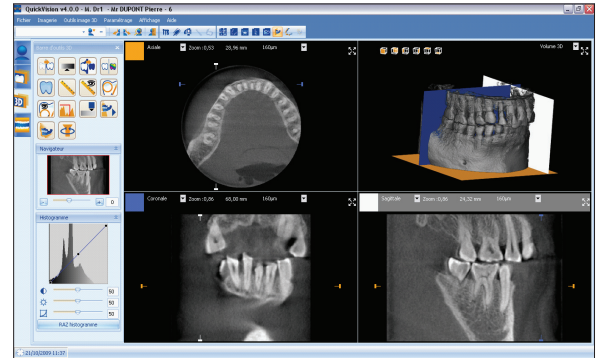

DIGITAL PANORAMIC

I-MAX TOUCH 3D
3 in 1 upgradable dental panoramic unit

16 built-in programs!

One of the few pans that have the capability to take digital tomography images. Affordably priced versus the competition, this pan also offers cutting edge technology and ease-of-use. With its TWAIN capabilities the machine can be integrated into any imaging software. The USB key is another great feature on this machine. If you want another dentist to have their patients come in and take pans, they could send their patients with USB keys to take images with them.

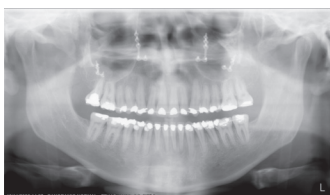

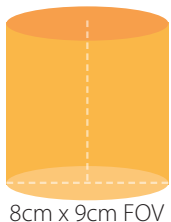

SimPlant® PRO

Now with
tomography
or
3D

Configure your machine the way you want it:

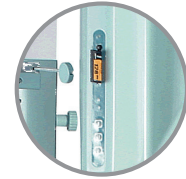

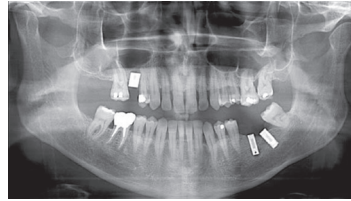

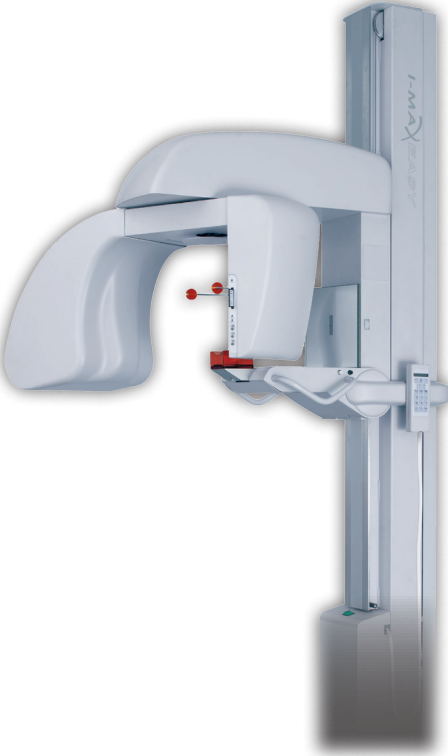

- Pan + Tomo
- Pan + Ceph + Tomo
- Pan + Ceph + 3D

- USB STORAGE
- INSTANT IMAGING
- DIRECT CONTROL
- TOUCH SCREEN
- BITEWING MODE
- SimPlant®**

DIGITAL PANORAMIC

I-MAX EASY

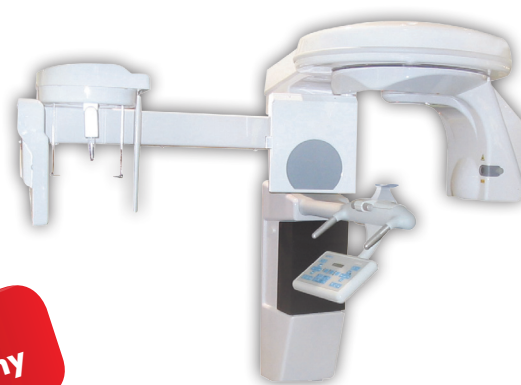

The I-Max Easy digital panoramic unit is the perfect combination of simplicity (already seen in the analog version in more than 15,000 practices around the world) and precision digitalization, and value.

I-Max Easy can be used for all of the most common panoramic radiographs:

- Standard adult or child panoramic
- TMJ mouth open or closed
- Sinus

I-Max Easy makes digital dentistry easy and affordable with integration into Quickvision software, Owandy image processing and a Twain drive that allows integration in to most other imaging software.

I-MAX PLUS

**Now with
tomography**

The latest technology to meet your diagnostic needs

- Our most advanced product in digital pan category
- Tomo feature with TMJ Tomo as well.
- Ceph add-on with second sensor

I-Max Plus combines a host of features for ensuring image quality and ease of use: 12 examination programs, 18 anatomical programs, face-to-face operation, a virtual control panel, a compact flash card connection with real-time images, resource sharing, and for-the-first-time fully computerized operation. With its TWAIN drive, the I-Max Plus integrates with most imaging software.

DIGITAL SENSORS

VISTEO

- Patented induction technology
- Only sensor in the WORLD with a 360° rotatable connector and a stainless steel cable for perfect positioning with its unique on-the-cable design
- Most comfortable sensor on the market
- Replaceable cable
- 80-90% less radiation than film
- Exceptional warranty
- Easy plug and play USB docking station
- 2 sizes available (Adult and Pado)
- Rounded corners for patient comfort

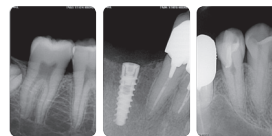

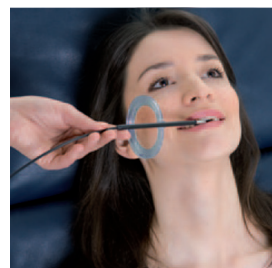

WELCOME TO A WORLD OF INNOVATION

A revolution in dental imaging

The Innovation Award winning Visteo from Owandy

VISTEO IS A NEW CONCEPT IN DENTAL RADIOGRAPHY :

A unique design in digital imaging, the Visteo transmits data through electronic induction, freeing the sensor head from restrictive wires and allowing complete rotation. This sensor opens up a whole world of possibilities.

KRYSTAL-X EASY

KRYSTAL X EASY

Digital Imaging with Added Convenience

The Krystal-X Easy sensor can be integrated with your X-ray generator, while maintaining convenient mobility from one operator to another.

- One of the highest resolutions on the market (26.3 lp/mm)
- Replaceable cable
- 80-90% less radiation than film
- Exceptional warranty
- Easy plug and play USB docking station
- 2 sizes available (Adult and Pado)
- Rounded corners for patient comfort
- Most economically priced sensor on the market

The Krystal-X is manufactured using a leading edge industrial process, which meets the most stringent requirements for strength, water resistance qualities and comfort.

INTRAORAL CAMERA

Intraoral cameras are a must for dental offices to allow patients to see what happening in their mouths. With these devices it is easy to explain a diagnosis and treatment to a patient. ROI on intraoral cameras that we sell is as low as 2 weeks.

ASHTELcamUSB INTRAORAL CAMERA

- The most affordable intraoral camera on the market
- Direct USB for plug and play
- 1.3 megapixel resolution
- Capture button on top and bottom
- Imaging software included
- TWAIN compliant
- Compatible with most major imaging products

ASHTELcamWIRELESS WIRELESS INTRAORAL CAMERA

- SONY 2.0 megapixel CCD
- True optical lens
- Six ultra-bright LEDs
- Replaceable lithium-ion battery
- Correct or mirror image
- Macro lens for 50x zoom
- Direct USB or TV receiver
- Feather-touch capture buttons
- Compatible with Apteryx and many most major imaging software products

OWANDY REAL HI-T INTRAORAL CAMERA

- Takes intraoral images
- One of the highest resolutions on the market at 2.4 megapixels
- Available with either a TV or USB connector

Einstein sapana WIRELESS INTRAORAL CAMERA

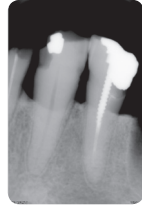

- 1.36 megapixel camera
- TV or USB connection
- Captures up to 16 pictures on camera
- Instant set-up; no wiring required
- No more struggling with cables
- Compact & ergonomic
- Light weight (4.4 oz.)
- Amazing portability

X-RAY UNITS

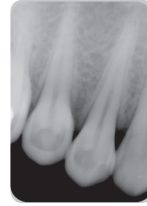

ELIOS AC

- Wall configuration
- Mobile configuration
- Great with film
- Cost effective

ALTIS DC

- DC technology brings innovation to radio diagnostics
- Competitively priced
- Digital sensors and film versatility

NOMAD

Portable hand-held X-Rays

- Amazing portability
- Weighs only 8 lbs
- Compatible with digital and film
- DC unit

NOMAD PRO

Hand-held X-Ray System

- Digital sensor or film
- Sharp, clear images
- Long battery life
- Weighs only 5 lbs
- DC unit

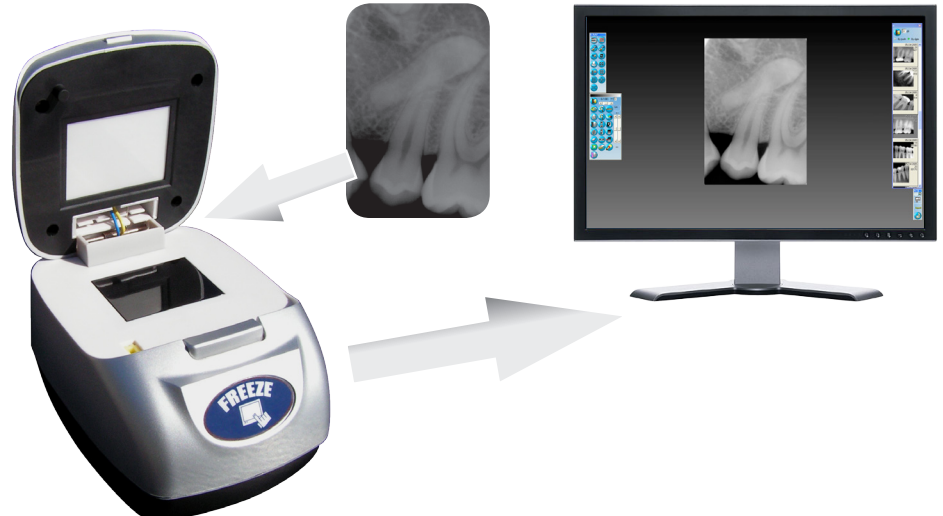

X-RAY FILM DIGITIZER

FILM DIGITIZER

Scan individual film into your PC, in seconds.

- Convert analog X-ray images to digital
- TWAIN compliant
- USB 2.0 connection
- Light and compact
- Easy to use

Modernize your radiograph library!

COMPUTER SOLUTIONS FOR DENTISTS

Converting to digital requires an IT infrastructure and cross-platform integration. Our experienced technicians provide turn key solutions for wiring, networking, audio-visual systems, telephone systems, and practice management and imaging software.

We understand the need for **a computer system** in a dental office.

We have helped thousands of offices with their computer hardware and networking needs. We are experienced with all software including Dentrix, Practiworks, Trojan, Easy Dental, DentiSoft, Practice Web, Schick Technology, Eagle Soft, EZ 2000 Dental, TDOCS, TDO, SoftDent, and many more...

MOBILE CARTS

Stylish mobility delivers convenience and security for all your operatories.

OFFICE ACCESSORIES

TOYS

NEW!! Ashtel Dental USB Mouse
#ADMS1 (1/box)

The only mouse you want in your dental office; the Ashtel Dental mouse features a free floating imitation tooth in blue fluid, smooth optical sensor for accurate control and easy-to-use USB connectivity.

NEW!! Evolution Chair
#EVOCHAIR1 (1/box)

The Evolution Chair™ is a high quality burst-resistant ball set on a moving base. Simply by sitting on the ball and adjusting your body to the bounce, sway and tilt of the ball, deep core muscles are engaged. These constant small adjustments build the endurance and strength of the muscles which facilitate optimal posture. "Active sitting" is guaranteed to complement your regular exercise program.

Ashtel Dental Teddy Bear
(1/box)

Show your young patients that you care with the Ashtel Dental Teddy Bear! Cuddly bear features soft plush fur, a bow, and a winning smile.

NON-TOXIC CONSTRUCTION

Brush Buddies brushes are made of safe, lead-free ABS material, because your child's health is important to us!

EASY-GRIP CHARACTER

Brush Buddies are made with kids in mind. The fun character brush handles are designed to be easy to hold in smaller hands.

STAY-CLEAN BRUSH HEAD*

Toothbrush is designed to lay on the countertop without the brush head touching the surface; Swingin' Sammy actually stands upright!

SOFT TYNEX® BRISTLES BY DUPONT™

Gentle on children's gums! We use the leading edge in monofilament bristle technology for child comfort and safety.

1 BUTTON + 2 MINUTES = A HEALTHY SMILE!

The brush plays a recording that teaches children how to brush their teeth, and lasts for the dentist-recommended two minutes of brushing time.

KID-FRIENDLY PAINT

We paint our Brush Buddies with only the best non-toxic paint. Completely lead-free, it will not flake or fade.

Item # 73098-72

Brush Buddies™ Talking Toothbrush is an innovation for kids. Our unique product features an attractive character design and an amusing voice! We designed this product to be more than just cute. Rather than focus only on entertainment, the audio played back through our brush actually educates kids and encourages them on healthy brushing habits. When activating the voice recording, it is played for exactly two minutes, giving kids the recommended brushing time without repeatedly looking at a timer or estimating when 2 minutes are up. The audio playback also guides kids to brush each section of their teeth; starting with their upper teeth, then switching to their lower teeth after the first minute, and finally ends the sequence by letting them know they have done a "Great job!"

POPPIN' ACTION

Remove the toothbrush cap (character's head), press the belly button, and the brush head will pop up!

NON-TOXIC CONSTRUCTION

Brush Buddies Poppin' are made of safe, lead-free ABS material, because your child's health is important to us!

STAY-CLEAN BRUSH HEAD

Every Brush Buddies Poppin' Toothbrush character stands up on its own two feet, hooves or paws which helps the brush head drain after each use.

SOFT NYLON BRISTLES

Gentle on children's gums! We use only soft nylon bristles for child comfort and safety.

KID-FRIENDLY PAINT

We paint our Brush Buddies with only the best non-toxic paint. Completely lead-free, it will not flake or fade.

AVAILABLE IN 5 POPPIN' CHARACTERS!

Make brushing fun with Brush Buddies Poppin'. Press the belly button and the brush pops up. All 5 characters come with soft bristles, which are gentle on children's gums.

Incognito

The answer is
behind
a beautiful smile

Dr. Parag Patel Introduces an Innovative Approach to Beautiful Smiles

The Incognito Appliance System is a revolutionary alternative to traditional orthodontic treatment for both teens and adults. Dr. Patel designs your new smile using state-of-the-art software and reverse engineering before your braces are even placed. The braces are 100% customized to follow the contours of your teeth for comfort, performance, and consistent treatment results.

- Teenagers and adults can smile with confidence while wearing hidden braces.
- Minimal discomfort and speech interference due to a smooth low-profile bracket design.
- Experience less time in braces with fewer visits by utilizing CAD/CAM digital technology.
- Dr. Patel is a Board-Certified Orthodontist extensively trained in the utilization of the Incognito system.
